Product Description

Massimo T-Boss 760 UTV

Middleweight Class Champ and fan-favorite, the Massimo T-BOSS 760 has the right combination of power, size, agility and flexibility to satisfy off-road enthusiasts and trail explorers. The 585cc 42HP Engine kicks up dirt, while 39lb/ft of Torque and up to 1500lb towing capacity gets you (and your friends) to the finish line. With a footprint that's 57 inches wide, and a 72 inch wheelbase, the T-BOSS 760 stays planted and composed in sand, mud, snow and rock. Oversized 27in All-Terrain tires front and back, paired with Four Corner Independent Suspension let you make tracks and set pace on the trails. Shaft-driven 4WD with locking differentials means less time stuck in the mud, and more time slinging it.
