### Product Description

## Kayo BULL150 EFI Utility ATV

#### FEATURES

The Kayo Bull 150EFI is built to work hard and play even harder! Now equipped with Electronic Fuel Injection (EFI), this 140cc SOHC 4-stroke ATV delivers smoother power, better throttle response, and improved fuel efficiency.

Its semi-auto 3-speed transmission with reverse makes shifting effortless, while the double A-arm front suspension, adjustable rear shock, and hydraulic disc brakes give you confidence on any terrain. 20-inch front and 19-inch rear tires provide grip and stability, and with 5.3 inches of ground clearance, the Bull 150EFI is ready to tackle trails, chores, and everything in between.

Efficient, reliable, and built for adventure—this Bull is ready to charge!
