Product Description

Kayo BULL 300 EFI Utility ATV

ADDITIONAL FEATURES

The Bull 300 EFI is the largest ATV in our utility lineup, but don't let its size fool you. The engine delivers impressive torque, and the automatic CVT transmission makes handling this beast a breeze. Need to back up? No problem—it's equipped with reverse, and the rear rack is designed to carry heavy loads with ease. Built for tough terrain, its suspension also allows for agile maneuvering in tight spots. Paired with a durable, lightweight frame, the Bull 300 EFI is the perfect ATV for both work and play. Plus, it's backed by a 6-month limited warranty.
