Product Description

Bighorn Timberland 450 LE UTV

Designed with the needs of rural property owners in mind, the Timberland 450 LE delivers a powerful combination of performance, dependability, and value. At \$9,499, the Timberland 450 LE is the lowest cost UTV equipped with Electronic Power Steering (EPS) and Turf Mode. Its 26 HP engine is capable of handling everyday farm chores and traversing off-road trails without breaking a sweat. EPS helps you effortlessly control the Timberland LE with confidence even under heavy load. 4WD and rear locking differential on demand gives you the option for added performance and traction in demanding conditions. Turn on Turf Mode, to protect your lawn and turf. Experience the perfect balance of work-ready power and agility. Whether you're working the farm, surveying the ranch, or exploring the back 40, this UTV delivers the power and control you need without breaking the bank.
