### Product Description

## Kayo STORM 300 ATV

Can you handle the Storm? A 292 cc engine and a manual 5-speed (and reverse) transmission so you can keep the engine output at its maximum. The double A-arm front suspension and adjustable rear shock are ready to soak up the bumps and ruts and deliver a smooth ride. A sturdy yet light weight frame holds 374 pounds and keeps the suspension and engine performing at the highest level. Thanks to features like a tool-less removable seat to access the air filter, maintenance is easy
